

The Story of the Mitutoyo 52-Bit Data Stream (with Diagrams)

52-bit Frame Breakdown

Mitutoyo 52-bit Frame (13 nibbles, 4 bits each)

N0	N1	N2	N3	N4	N5	N6	N7	N8	N9	N10	N11	N12
----	----	----	----	----	----	----	----	----	----	-----	-----	-----

Wiring Connections

Caliper Pin	Signal	Arduino Pin (via level shifting)
1	GND	GND
2	DATA	D4
3	CLOCK	D2 (INT0)
4	REQ	D3 (optional)

These diagrams illustrate the Mitutoyo Digimatic 52-bit data stream structure and a simple wiring map for Arduino interfacing (with proper level shifting).
